

It is not a case of **WHAT** we grow but **WHO** we grow at Snakehall Farm.

WHAT we grow are fruit, vegetables, herbs and flowers to certified organic standards on our 18 acre farm in Reach, Cambridgeshire which we wholesale to local businesses and sell in our on-site farm shop.

WHO we grow are our Co-workers (individuals with disabilities) and we've been growing since 1989. We teach life and independence skills through farming, gardening and other related activities such as cooking, making hanging baskets, making wooden craft items and garden furniture. We also run a garden maintenance service 5 days a week to local businesses and residential homes which provides experience of working in the community.

We only focus on people's abilities at Snakehall Farm and passionately believe that everyone can do anything with the right support.

We work with over 60 individuals a week and each one has an Individual Learning Plan which follows a structured learning pathway to their chosen end goal, which could be being work ready or wanting to learn a particular new skill. Uniquely we teach everyone how to drive Tilly, our New Holland tractor.

We work to a co-operative ethos at Snakehall farm and take inclusion and choice very seriously. We have monthly Co-worker Committee meetings where Co-workers make decisions on matters that directly affects our Co-workers. We believe that **everyone** has a voice that should be heard.

Most of our learning is delivered through hands-on sessions in the outdoors with qualified and experienced staff who love to watch people grow into socially confident, knowledgeable and enabled individuals.

Our farm is open for placements Monday to Friday all year around. We can also arrange personal support for people with more profound needs. We welcome organised group visits and team building workshops can also be arranged upon request.
